I, the undersigned Shlomo Wilhelm, the Chief Rabbi of Zhytomir city and Western Ukraine, hereby do confirm that products made by Branch "Poultry Farm "AVIS" of PJSC "Agroholding Avangard", in particular **hen eggs** are really recognized to be **Kosher**.

As I attended the Company's factory January 11, 2021 and personally saw the whole production cycle, I hereby do represent that it is not in conflict with the Kashrut laws (the Jewish religious dietary laws).

Laying hens are being kept apart of male chicks. They are given all required vitamins and anti-viral medications through addition thereof into water, as opposed to injections. Egg sorting warehouses are provided with egg sorting machines (OEM: MOVA, Holland) equipped with the Blood probe enabling to test the eggs for blood presence inside thereof and therefore, treat it as rejected for the purpose of further disposal.

In view of the aforesaid, I do hereby certify and warrant that the process of hen eggs production applied by Branch "Poultry Farm "AVIS" of PJSC "Agroholding Avangard" **fully complies with the Kashrut laws** and that the hen eggs so produced **are recognized to be Kosher**.
