№ 7  
23.02.2021

Certificate of Kosher Status  
(Teudat Kashrut)  
Of **Imperovo Foods** company products

issued by:  
Rabbi Shlomo Wilhelm  
Chief Rabbi of Zhytomyr and Western  
Ukraine

I, the undersigned Rabbi Shlomo Wilhelm, Chief Rabbi of Zhytomyr city and Western Ukraine, hereby do confirm that products made by **Imperovo Foods Company**, in particular **Egg white powder high gel, Egg white powder high whip, Egg yolk powder, Whole egg liquid, Frozen liquid whole egg, Whole egg powder**, are recognized to be **Kosher**.

As I attended the Company's factory repeatedly 11 January 2021 and personally saw the whole production cycle, I hereby do certify that it is not in conflict with the Kashrut laws (the Jewish religious dietary laws).

The powdered eggs are made only from the Company's own raw products, in particular eggs laid at farming enterprises and poultry farms owned by the Company. Laying hens are kept separately from males. They are given all required vitamins and anti-viral medications through addition thereof into water, as opposed to injections. Egg sorting warehouses are provided with egg sorting machines (OEM: *MOVA, Holland*) by which damaged or bloody eggs are automatically discarded.

The egg powder is completely natural. Maxapal, which is added during manufacture, has a kosher certificate, verified by me.

According to the instruction of our Sages to refrain from eating eggs left open over night, provision has been made for the automatic addition of the minimally required quantity of salt (or other components) into the raw egg products, thus enabling to label all said foods with the highest level of Kashrut.

In view of the aforesaid, I do hereby certify and warrant that the process of powdered eggs production applied by **Imperovo Foods** **fully complies with the Kashrut laws** and that the powdered eggs so produced **are recognized to be Kosher**.

**This document is valid until February 22, 2022.**

Rabbi Shlomo Wilhelm  
Chief Rabbi of Zhytomyr  
and Western Ukraine
